SUBJECT INDEX, VOLUME 16

A

PAGE

Absorption and translocation of 2,4,5-T, measuring in mesquite 88
Absorption, translocation, and metabolism, of prometryne in cotton and soybean 474
Activity, amitrole, effect of Canada thistle ecotypes on..... 413
Activity of picloram, persistence in soil 341
Additives, hygroscopic, to phenoxy herbicides for control of saltcedar 486
Additives, with picloram and 2,4,5-T for winged elm control 131
Adsorption and phytotoxicity of simazine, influence of soil on 209
Alfalfa and birdsfoot trefoil, interaction of DNBP and EPTC on 182
Algae, unicellular, physiological effects of fluometuron on.... 296
Amiben, metabolism and selectivity of 283
Amiben metabolite, differential phytotoxicity of 384
Amitrole activity, effect of Canada thistle ecotypes on 413
Amitrole and analogs, structure versus metabolic activities of 152
Amitrole, effect on growth of red maple and white ash seedlings 32
Amitrole, for control of western whorled milkweed 4
Amitrole in soil, chemical versus microbial decomposition.... 266
Amitrole, influence on protein metabolism in bean plants 222
Amitrole metabolism in excised leaves, influence of environmental and chemical factors on 527
Amitrole, metabolism of, in excised leaves of Canada thistle and bean 523
Amitrole, toxicity to quackgrass, influence of oils on 288
AMS, effect on growth of red maple and white ash seedlings... 32
Amylase, in barley and squash seedlings, herbicidal influences on 519
Analogs of amitrole, structure versus metabolic activities of.... 152
Anatomy and cytology of roots, effect of DCPA on 449
Annual flowers, effect of soil-incorporated herbicides on 60
Application time, herbicides, effect on response of smooth bromegrass 443
Aquatic weeds, ecology in canals 261
Arsenicals, organic, translocation in purple nutsedge 421
Atrazine, changes of barnyardgrass chloroplasts by 377
Atrazine, cucumbers sprayed with, relationship between foliar symptoms and tissue content of 441
Atrazine, for alteration of transpiration and dry matter 389
Atrazine, leaf concentrations in cereals as related to tolerance.. 7

B

Bacterial and fungal colonies, relation of triazine residues to... 104
Barban, diallate, and triallate, response of wild oat lines to.... 491
Barley and crabgrass, metabolism of siduron by 305
Barley and squash seedlings, herbicidal influences on amylase in 519
Barley and wheat, competition of wild oat in 505
Barley root metabolism, effect of siduron upon 344
Barley, uptake and translocation of diallate in 309
Barnyardgrass chloroplasts, changes induced by atrazine 377
Barnyardgrass control in rice, with propanil and molinate 235
Barnyardgrass, herbicidal action of molinate in 28
Barnyardgrass, life cycle, effect of light quality on 58
Beads, glass, and soil, for displacement of fluometuron and diuron 544
Bean and Canada thistle leaves, excised, metabolism of amitrole in 413
Bean leaves, detached, translocation of herbicides in 352
Bean plant, influence of amitrole on protein metabolism in.... 222
Beets, red, N-glucosyl metabolite of pyrazon in 40
Benefin, nitralin, and trifluralin, leaching in soil columns.... 165
Bensulide, tolerance of bentgrasses and bluegrasses 16
Bentgrass, treated with silvex, environmental influence on.... 193
Bentgrasses, tolerance to bensulide 16
Benzoic and phenylacetic acids, persistence in soils 217
Biological activity and dissipation, of IPC and CIPC..... 13
Birdsfoot trefoil and alfalfa, interaction of DNBP and EPTC on 182
Birdsfoot trefoil, fate of 2,4-D applied to 516
Black locust, temperature and growth cycle effects on root suckering in 250
Blueberries, highbush, response to diuron and simazine 303

PAGE

Bluegrasses, susceptibility to bensulide, bromacil, and terbacil 16
Bromacil, susceptibility of bluegrasses 16
Bromegrass, smooth, response to herbicides as affected by time of application 443
Bromoxynil, endothall, and dichlobenil, influence on kinen control of proteolytic activity 323

C

Cabbage, effects of 2,4-D on mitochondria from 161
Cabomba, reproduction and overwintering in New Jersey 101
Canada thistle and bean leaves, excised, metabolism of amitrole in 523
Canada thistle ecotypes, effect on amitrole activity 413
Canada thistle, translocation of dicamba in 176
Canals, ecology of aquatic weeds in 261
Carbamate insecticides, inhibition of degradation of monuron in cotton leaf tissue by 481
Challenges and progress, of WSSA; presidential address 411
Chemical and environmental factors, influence of, on amitrole metabolism in excised leaves 527
Chemical and mechanical weed control methods, compatibility of 121
Chemical and mechanical weed control, economic comparison of 369
Chemical fallow, of abandoned croplands on short-grass plains 531
Chemical versus microbial decomposition, amitrole in soil.... 266
Chemical weed control, in gladiolus 86
Chickens, effects of herbicides on spring parsley to photosensitize 350
Chlorella pyrenoidosa Chick. (Emerson strain), effect of certain quinones, diquat, and diuron on 69
Chlorella vulgaris, for assay of activity of soil herbicides..... 427
Chloroplasts, barnyardgrass, changes induced by atrazine..... 377
Chromatographic determination, of metobromuron and metabolites in soil 401
Chrysanthemums, garden, preemergence weed control in 42
CIPC, biological activity and dissipation of 13
Cocklebur treated with 2,4-D physiological changes during death of 96
Combinations, herbicide, for woody plant control 332
Combinations in soil, herbicide-insecticide, synergistic phytotoxicities of 74
Competition, between wheat and wild buckwheat 204
Competition, between wild oat and flax 501
Competition, weed, in rice 252
Competition, wild oat in flax, duration of 509
Competition, wild oat in wheat and barley 505
Comparison, economic, of mechanical and chemical weed control 369
Compatibility, assessing, of herbicides and nitrogen solutions.. 468
Control, chemical, of reed canarygrass on irrigation canals.... 465
Corn, accumulation of atrazine in leaves 8
Corn and cotton roots, effect of trifluralin 513
Corn chamomile, seed dormancy 111
Corn, cultivation and herbicides for weed control 232
Corn roots, cytological and morphological effects of nitralin.... 259
Corn, soybean, and crabgrass, effect of linuron on ion uptake by 188
Cotton and corn roots, effect of trifluralin 513
Cotton and soybean, absorption, translocation, and metabolism of prometryne 474
Cotton and soybean roots, inhibition from trifluralin in soil.. 199
Cotton leaf tissue, degradation of monuron in, inhibition by carbamate insecticides 481
Cotton seedlings, interaction of herbicides with *Rhizoctonia solani* in 453
Cotton seedlings, trifluralin-insecticide interactions on 430
Cotton, subsurface application and shallow incorporation of herbicides on 494
Crabgrass and barley, metabolism of siduron by 305
Crabgrass, corn, and soybean, effect of linuron on ion uptake by 188
Crabgrass life cycle, effect of light quality on 58
Cranberries, effect of dichlobenil on 38

SUBJECT INDEX, VOLUME 16

PAGE

Crested wheatgrass, effect of herbicidal residues on 315
Croplands, abandoned, chemical fallow of, on short-grass plains 531
Cucumbers sprayed with atrazine, relationship between foliar symptoms and tissue content of 441
Cultivation and herbicides, for weed control in corn 232
Cytological and morphological effects, nitralin on corn roots.. 259
Cytology and anatomy of roots, effect of DCPA on 449

D

2,4-D, effect on growth of red maple and white ash seedlings.. 32
2,4-D, effects on mitochondria from cabbage 161
2,4-D, fate, applied to birdsfoot trefoil 516
2,4-D, for control of musk thistle 1
2,4-D, for control of western whorled milkweed 4
2,4-D, low-volatile esters, vapor pressures of 541
2,4-D, physiological changes during death of cocklebur treated with 96
2,4-D, role of herbicide-induced ethylene production in..... 498
2,4-DB, for control of musk thistle 1
2,4-D in forage, effects of environmental factors on removal of 114
DCPA, effect on anatomy and cytology of roots 449
DCPA, interaction with soil microorganisms 470
Decomposition, chemical versus microbial, amitrole in soil.... 266
Degradation and distribution of simazine, in red pine seedlings 374
Degradation of monuron in cotton leaf tissue, inhibition by carbamate insecticides 481
Determination, chromatographic, of metobromuron and metabolites in soil 401
Diallate, translocation and uptake in wheat, barley, flax, and wild oat 309
Diallate, triallate, and barban, response of wild oat lines to.... 491
Dicamba, effect on growth of red maple and white ash seedlings 32
Dicamba, for control of musk thistle 1
Dicamba, for control of western whorled milkweed 4
Dicamba, translocation and fate in purple nutsedge 240
Dicamba, translocation in Canada thistle 176
Dichlobenil and 2,6-dichlorothiobenzamide, persistence in soil 245
Dichlobenil, effect on cranberries 38
Dichlobenil, endothall, and bromoxynil, influence on kinin control of proteolytic activity 323
Dichlobenil, incorporation in mulches 230
Dichlobenil, response of purple and yellow nutsedge to..... 339
2,6-Dichlorothiobenzamide and dichlobenil, persistence in soil 245
Differences, species, in site of root uptake and tolerance to EPTC 534
Differences, species, in site of shoot uptake and tolerance to EPTC 538
Diphenamid, interaction with two soil fungi, effect on tomato 55
Diquat, diuron, and certain quinones, effect on *Chlorella*..... 69
Diquat in elodea, tetrazolium reaction as measure of action of 329
Diquat, uptake and translocation in elodea 293
Distribution and degradation of simazine, in red pine seedlings 374
Displacement of fluometuron and diuron, through glass beads and soil 544
Dissipation and biological activity, of IPC and CIPC 13
Diuron and fluometuron, displacement of, through glass beads and soil 544
Diuron and monuron in leaf discs, metabolic fate of..... 137
Diuron and simazine, response of high blueberries to..... 303
Diuron, monuron, and simazine residues, in a vineyard soil.. 63
Diuron, diquat, and certain quinones, effect on *Chlorella*.... 69
Diuron, simazine, isocil, and monuron, soil sterilization properties of 358
DNBP and EPTC, interaction on alfalfa and birdsfoot trefoil 182
Dormancy, longevity, and germination, of seed of three larkspurs and western false hellebore 381
Dry matter and transpiration, alteration with atrazine 389
Duration of competition, wild oat in flax 501

E

Ecology, germination, and growth, of sicklepod 396
Ecology, of aquatic weeds in canals 261
Ecological studies, of musk thistle 1
Ecotypes, Canada thistle, effect on amitrole activity 413
Elodea, tetrazolium reaction as measure of action of diquat in 329
Elodea, uptake and translocation of diquat in 293
Endothall, dichlobenil, and bromoxynil, influence on kinin control of proteolytic activity 323
Environmental and chemical factors, influence on amitrole metabolism in excised leaves 527
Environmental factors, effects on removal of 2,4-DB in forage 114
Environmental influence, on bentgrass treated with silvex..... 193
EPTC and trifluralin residues, after incorporation with different implements 415
EPTC and DNBP, interaction on alfalfa and birdsfoot trefoil.. 182
Esters, low-volatile, of 2,4-D, vapor pressures of 541
Ethylene production, herbicide-induced, in 2,4-D..... 498

F

Fallow, chemical, of abandoned croplands on short-grass plains 531
Fallow-winter wheat rotation, weed control in 255
Fate and translocation, of dicamba in purple nutsedge 240
Fate of 2,4-D, applied to birdsfoot trefoil 516
Flax and wild oat, competition between 501
Flax, duration of competition of wild oat in 509
Flax, uptake and translocation of diallate in 309
Flowers, annual, effect of soil-incorporated herbicides on 60
Fluometuron and diuron, displacement of, through glass beads and soil 544
Fluometuron, extraction from water by n-pentane 356
Fluometuron in soils, residual phytotoxicity 226
Fluometuron, physiological effects on unicellular algae 296
Fluorometric analysis, for evaluation of soil incorporation.... 372
Foliar spraying of hardwoods, mist blowing versus other methods 425
Forage, effects of environmental factors on removal of 2,4-DB.. 114
Forests, effect and persistence of herbicides applied to soil.... 45
Fungal and bacterial colonies, relation of triazine residues to.. 104
Fungi, two soil, interaction of diphenamid with, effect on tomato 55

G

Germination, dormancy, and longevity, of seed of three larkspurs and western false hellebore 381
Germination, growth, and ecology, of sicklepod 396
Germination, medusahead, in response to osmotic stress 364
Germination, medusahead, in response to temperature and afterripening 92
Germination, seed, influence of paraquat on 484
Giant foxtail, shoot of, importance in uptake of herbicides.... 393
Gladiolus, chemical weed control in 86
Growth cycle and temperature effects, on root suckering in black locust 250
Growth, ecology, and germination, of sicklepod 396

H

Hand labor for weed control; herbicides on Japanese holly.... 478
Hardinggrass-subclover pasture, effect of paraquat on 66
Hardwoods, foliar spraying of, mist blowing versus other methods 425
Herbicidal influences, on amylase in barley and squash seedlings 519
Herbicidal persistence in soil, effect on purple nutsedge..... 149
Herbicidal phytotoxicity, to Emerald zoysia during establishment 312
Herbicidal residues, effect on crested wheatgrass 315
Herbicide combinations, for woody plant control 332
Herbicide-insecticide combinations in soil, synergistic phytotoxicities of 74
Herbicides and cultivation, for weed control in corn 232
Herbicides and nitrogen solutions, assessing compatibility of.. 468
Herbicides applied to soil in forests, effect and persistence.... 45
Herbicides applied with injector, response of oak and red maple 159
Herbicides, effect on proteolytic activity of squash seedlings.... 169
Herbicides, effects on spring parsley to photosensitize chickens 350
Herbicides, importance of shoot of giant foxtail for uptake of 393
Herbicides, inhibition of lipid synthesis by 197
Herbicides, interaction with *Rhizoctonia solani* in cotton seedlings 453
Herbicides, loss in runoff water 447
Herbicides on cotton, subsurface application and shallow incorporation of 494
Herbicides, on Japanese holly; hand labor for weed control.... 478
Herbicides, phenoxy, hygroscopic additives to, for control of saltcedar 486

PAGE

Herbicides, preemergence, factors affecting performance of.... 457
Herbicides, smooth bromegrass response to, as affected by time of application 443
Herbicides, soil, assay of activity by *Chlorella vulgaris*..... 427
Herbicides, soil-incorporated, effect on annual flowers 60
Herbicides, tolerance of sugarcane varieties to 300
Herbicides, translocation in detached bean leaves 352
Honeyvine milkweed, reproductive characteristics of 436

I

Incorporation, dichlobenil in mulches 230
Incorporation, shallow, and subsurface application, of herbicides on cotton 494
Inhibition, of degradation of monuron in cotton leaf tissue by carbamate insecticides 481
Injector, response of oak and red maple to herbicides applied with 159
Insecticide-herbicide combinations in soil, synergistic phytotoxicities of 74
Insecticide-trifluralin interactions, on cotton seedlings 453
Insecticides, carbamate, inhibition of degradation of monuron in cotton leaf tissue by 481
Insects, Russian thistle as alternate host to 102
Interaction of diphenamid and two soil fungi, on tomato 55
Interactions, of herbicides with *Rhizoctonia solani* in cotton seedlings 453
Interactions, of soil microorganisms and DCPA 470
Interactions, trifluralin-insecticide, on cotton seedlings 430
IPC, biological activity and dissipation of 13
Irrigation canals, chemical control of reed canarygrass on..... 465
Isocil, monuron, diuron, and simazine, soil sterilization properties of 358

J

Japanese holly, herbicides on; hand labor for weed control.... 478

K

Kinin control of proteolytic activity, influence of bromoxynil, endothall, and dichlobenil on 323

L

Larkspurs, three, and western false hellebore, dormancy, longevity, and germination of seed of 381
Leaching, five thiocarbamate herbicides in soils 77
Leaching, of seven *s*-triazines 117
Leaching, of trifluralin, benefin, and nitralin in soil columns.. 165
Leaf tissue, cotton, degradation of monuron in, inhibition by carbamate insecticides 481
Leaf tissue, western ironweed, reaction to picloram 347
Leaves, excised, Canada thistle and bean, metabolism of amitrole in 523
Leaves, excised, influence of environmental and chemical factors on amitrole metabolism in 527
Life cycles of crabgrass and barnyardgrass, effect of light quality on 58
Light quality, effects on life cycles of crabgrass and barnyardgrass 58
Linuron, effect on ion uptake in corn, soybean, and crabgrass 188
Linuron, effect on ^{32}P and ^{45}Ca uptake by tomato and parsnip 185
Linuron, selectivity on tomato and parsnip 51
Lipid synthesis by herbicides, inhibition of 197
Longevity, germination, and dormancy, of seed of three larkspurs and western false hellebore 381

M

Mechanical and chemical weed control, economic comparison of 369
Mechanical and chemical weed control methods, compatibility of 121
Medusahead germination, response to osmotic stress..... 364
Medusahead germination, response to temperature and afterripening 92
Mesquite, measuring absorption and translocation of 2,4,5-T in 88
Metabolic activities versus structure, of amitrole and analogs 152
Metabolic fate, of monuron and diuron in leaf discs 137
Metabolism, absorption, and translocation, of prometryne in cotton and soybean 474

PAGE

Metabolism and movement, of CIPC 432
Metabolism and selectivity, of amiben 283
Metabolism of amitrole in excised leaves, influence of environmental and chemical factors on..... 527
Metabolism, of amitrole in excised leaves of Canada thistle and bean 523
Metabolism of barley root, effect of siduron upon 344
Metabolism of siduron, by barley and crabgrass 305
Metabolism, of vernolate-^{14}C in soybean seedlings 290
Metabolism, protein, influence of amitrole in bean plant on.... 222
Metobromuron and metabolites in soil, chromatographic determination of 401
Microbial versus chemical decomposition, amitrole in soil.... 266
Microflora, soil, influence of siduron and degradation products 417
Microorganisms, soil, interaction with DCPA 470
Mist blowing versus other methods, foliar spraying of hardwoods 425
Mitochondria, cabbage, effect of 2,4-D on 161
Mitochondrial activities, effect of trifluralin and nitralin on.. 83
Molinate, action in barnyardgrass and rice 28
Molinate and propanil, for barnyardgrass control in rice 235
Monuron and diuron in leaf discs, metabolic fate of..... 137
Monuron, diuron, and simazine residues, in a vineyard soil.. 63
Monuron, diuron, simazine, and isocil, soil sterilization properties of 358
Monuron in cotton leaf tissue, degradation of, inhibition by carbamate insecticides 481
Morphological and cytological effects, nitralin on corn roots.. 259
Movement and metabolism, of CIPC 432
Movement and persistence, of 2,3,6-TBA in soil 144
Movement and phytotoxicity of paraquat in quackgrass, factors affecting 80
Mulches, incorporation of dichlobenil in 230
Musk thistle, control of 1
Musk thistle, ecological studies of 1

N

Nitralin and trifluralin, effect on mitochondrial activities..... 83
Nitralin, morphological and cytological effects on corn roots.. 259
Nitralin, trifluralin, and benefin, leaching in soil columns.... 165
Nitrogen solutions and herbicides, assessing compatibility of.. 468
Nutsedge, purple and yellow, response to dichlobenil 339
Nutsedge, purple, effect of herbicidal persistence in soil on.... 149
Nutsedge, purple, translocation and fate of dicamba in..... 240
Nutsedge, purple, translocation of organic arsenicals in..... 421

O

Oak and red maple, response to herbicides applied with injector 159
Oils, influence on toxicity of amitrole to quackgrass..... 288
Osmotic stress, effects on germination of medusahead..... 364
Overwintering and reproduction, of Cabomba in New Jersey.. 101

P

Paraquat and 2,4,5-T, effect on picloram in woody plants 336
Paraquat, effect on subclover-Hardinggrass pasture 66
Paraquat, influence on seed germination 484
Paraquat in quackgrass, phytotoxicity and movement of, factors affecting 80
Parsnip and tomato, effect of linuron on uptake of ^{32}P and ^{45}Ca 185
Parsnip, selectivity of linuron on..... 51
Pasture, subclover-Hardinggrass, effect of paraquat on 66
Peanut production, vernolate for weed control in 317
n-Pentane, for extraction of fluometuron from water 356
Performance of preemergence herbicides, factors affecting.... 457
Persistence and movement, of 2,3,6-TBA in soil 144
Persistence and phytotoxicity, of thiocarbamates in soil 172
Persistence, herbicidal, in soil, effect on purple nutsedge..... 149
Persistence, of benzoic and phenylacetic acids in soils 217
Persistence, of dichlobenil and 2,6-dichlorothiobenzamide in soil 245
Persistence, of picloram activity in soil 341
pH, effect on phytotoxicity of prometryne in synthetic soil 134
Phenylacetic and benzoic acids, persistence in soils 217
Physiological changes, during death of cocklebur treated with 2,4-D 96
Physiological effects, of fluometuron on unicellular algae 296
Phytotoxicity and adsorption of simazine, influence of soil on 209
Phytotoxicity and movement of paraquat in quackgrass, factors affecting 80

PAGE

Phytotoxicity and persistence, of thiocarbamates in soil 172
Phytotoxicity, differential of amiben metabolite 384
Phytotoxicity, herbicidal, to Emerald zoysia during establishment 312
Phytotoxicity of prometryne in synthetic soil, effect of pH on 134
Phototoxicity, of propanil 23
Phytotoxicity, residual, of fluometuron in soils 226
Phytotoxicities, synergistic, of herbicide-insecticide combinations in soil 74
Picloram activity, persistence in soil 341
Picloram and 2,4,5-T, for winged elm control 131
Picloram, effect on growth of red maple and white ash seedlings 32
Picloram, for control of musk thistle 1
Picloram, for control of western whorled milkweed 4
Picloram in woody plants, effect of paraquat and 2,4,5-T on.... 336
Picloram, reaction of western ironweed leaf tissue to 347
Pine seedlings, red, distribution and degradation of simazine in 374
Plains, short-grass, chemical fallow of abandoned croplands on 531
Plots, research, shielded, tractor-mounted sprayer for 386
Progress and challenges, of WSSA; presidential address..... 411
Prometryne, in cotton and soybean, metabolism, absorption, and translocation of 474
Prometryne in synthetic soil, effect of pH on phytotoxicity of.. 134
Propanil and molinate, for barnyardgrass control in rice..... 235
Propanil, phytotoxicity of 23
Protein metabolism in bean plant, influence of amitrole on 222
Proteolytic activity, kinin control of, influence of bromoxynil, endothall, and dichlobenil on 323
Proteolytic activity of squash seedlings, effect of herbicides on.. 169
Purple and yellow nutsedge, response to dichlobenil 339
Purple nutsedge, effect of herbicidal persistence in soil on.... 149
Pyrazon, N-glucosyl metabolite of, in red beets 40
Pyriclor, for quackgrass control 439

Q

Quackgrass control, with pyriclor 439
Quackgrass, factors affecting phytotoxicity and movement of paraquat in 80
Quackgrass, influence of oils on toxicity of amitrole to 288
Quinones, diquat, and diuron, effect on *Chlorella* 69

R

Red maple and oak, response to herbicides applied with injector 159
Red maple and white ash seedlings, growth when treated with herbicides 32
Red pine seedlings, distribution and degradation of simazine in 374
Reed canarygrass, chemical control on irrigation canals..... 465
Reproduction and overwintering, of Cabomba in New Jersey.. 101
Reproductive characteristics, of honeyvine milkweed..... 436
Residues, herbicidal, effect on crested wheatgrass 315
Residues, of EPTC and trifluralin incorporated with different implements 415
Residues of triazines, relation to fungal and bacterial colonies 104
Residual monuron, diuron, and simazine, in a vineyard soil.... 63
Rhizoctonia solani, interaction with herbicides in cotton seedlings 453
Rice, herbicidal action of molinate in 28
Rice, propanil and molinate for barnyardgrass control in 235
Rice, weed competition in 252
Root development, of rush skeletonweed 213
Root suckering in black locust, temperature and growth cycle effects on 250
Root uptake, site of, and tolerance to EPTC, species differences 534
Roots, corn, cytological and morphological effects of nitralin on 259
Roots, cotton and soybean, inhibition from trifluralin in soil.. 199
Roots, cytology and anatomy of, effect of DCPA on 449
Roots of corn and cotton, effect of trifluralin on 513
Roots, rate of elongation of, in weeds 11
Rotation, winter wheat-fallow, weed control in 255
Row spacing, effect on weed control in soybeans 462
Rush skeletonweed, root development of 213
Russian thistle, alternate host to insects 102

S

Safflower, tillage practices in 326
Seed dormancy, in corn chamomile 111

PAGE

Seed dormancy, longevity, and germination, in western false hellebore and three larkspurs 381
Seed germination, influence of paraquat on 484
Selectivity and metabolism, of amiben 283
Shoot of giant foxtail for uptake of herbicides, importance of 393
Shoot uptake, site of, and tolerance to EPTC, species differences in 538
Sicklepod, germination, growth, and ecology of 396
Siduron and degradation products, influence on soil microflora 417
Siduron, effect upon barley root metabolism 344
Siduron, metabolism by barley and crabgrass 305
Silvex, environmental influence on bentgrass treated with 193
Silvex, for control of western whorled milkweed 4
Simazine, adsorption and phytotoxicity, influence of soil on.... 209
Simazine and diuron, response of highbush blueberries to.... 303
Simazine, distribution and degradation in red pine seedlings.. 374
Simazine, isocil, monuron, and diuron, soil sterilization properties of 358
Simazine, monuron, and diuron residues, in a vineyard soil... 63
Site of root uptake and tolerance to EPTC, species differences 534
Site of shoot uptake and tolerance to EPTC, species differences 538
Soil and glass beads, for displacement of fluometuron and diuron 544
Soil, chemical versus microbial decomposition of amitrole in.... 266
Soil, chromatographic determination of metobromuron and metabolites in 401
Soil columns, leaching of trifluralin, benefin, and nitralin in.. 165
Soil herbicides, assay of activity by *Chlorella vulgaris*..... 427
Soil incorporation, evaluation by fluorometric analysis 372
Soil, influence on adsorption and phytotoxicity of simazine.... 209
Soil microflora, influence of siduron and degradation products 417
Soil microorganisms, interaction with DCPA..... 470
Soil, persistence and movement of 2,3,6-TBA in 144
Soil, persistence and phytotoxicity of thiocarbamates in 172
Soil, persistence of dichlobenil and 2,6-dichlorothiobenzamide in 245
Soil, persistence of picloram activity in 341
Soil, phytotoxicities of herbicide-insecticide combinations in.. 74
Soil sterilization properties, of monuron, diuron, simazine, and isocil 358
Soil, synthetic, effect of pH on phytotoxicity of prometryne in 134
Soil, vineyard, residual monuron, diuron, and simazine in a.. 63
Soils, persistence of benzoic and phenylacetic acids in 217
Soils, residual phytotoxicity of fluometuron in 226
Soils, thiocarbamate herbicides leaching in 77
Sorghum, accumulation of atrazine in leaves of 9
Soybean and cotton, absorption, translocation, and metabolism of prometryne in 474
Soybean and cotton roots, inhibition from trifluralin in soil.. 199
Soybean, corn, and crabgrass, effect of linuron on ion uptake by 188
Soybean seedlings, metabolism of vernolate-^{14}C in 290
Soybeans, control of wild cane in..... 18
Soybeans, effect of row spacing on weed control in..... 462
Sprayer, shielded, tractor-mounted, for research plots 386
Spring parsley to photosensitize chickens, effects of herbicides on 350
Structure versus metabolic activities, of amitrole and analogs... 152
Subclover-Hardinggrass pasture, effect of paraquat on 66
Sugarcane varieties, tolerance to herbicides 300
Squash and barley seedlings, herbicidal influences on amylase in 519
Squash seedlings, effect of herbicides on proteolytic activity.... 169
Symptoms, foliar, relationship with tissue content, on cucumbers sprayed with atrazine 441

T

2,4,5-T and paraquat, effect on picloram in woody plants 336
2,4,5-T and picloram, for winged elm control 131
2,4,5-T, effect on growth of red maple and white ash seedlings 32
2,4,5-T, for control of musk thistle 1
2,4,5-T, for control of western whorled milkweed 4
2,4,5-T, measuring absorption and translocation by mesquite.. 88
2,4,5-TB, effect on growth of red maple and white ash seedlings 32
2,3,6-TBA in soil, persistence and movement of 144
Temperature and afterripening, effect on medusahead germination 92
Temperature and growth cycle effects, on root suckering in black locust 250
Terbacil, susceptibility of bluegrasses 16
Tetrazolium reaction, as measure of action of diquat in elodea 329

PAGE

Thiocarbamate herbicides, leaching in soils 77
Thiocarbamates in soils, persistence and phytotoxicity of 172
Tillage practices, in safflower, influence on yields and weed control of 326
Tissue content and foliar symptoms, relationship of, on cucumbers sprayed with atrazine 441
Tolerance and site of root uptake of EPTC, species differences in 534
Tolerance and site of shoot uptake of EPTC, species differences in 538
Tolerance, sugarcane varieties to herbicides 300
Tomato and parsnip, effect of linuron on uptake of ^{32}P and ^{45}Ca by 185
Tomato, interaction of diphenamid and two soil fungi, effect on 55
Tomato, selectivity of linuron on 51
Toxicity of amitrole to quackgrass, influence of oils on 288
2,4,5-TP, effect on growth of red maple and white ash seedlings 32
Translocation and absorption of 2,4,5-T, measuring in mesquite 88
Transpiration and dry matter, alteration with atrazine..... 389
Translocation and fate, of dicamba in purple nutsedge 240
Translocation and uptake, diallate in wheat, barley, flax, and wild oat 309
Translocation and uptake, of diquat in elodea 293
Transport and uptake of picloram in woody plants, effect of paraquat and 2,4,5-T on 336
Translocation, metabolism, and absorption, of prometryne in cotton and soybean 474
Translocation, of dicamba in Canada thistle 176
Translocation, of herbicides in detached bean leaves..... 352
Translocation, organic arsenicals in purple nutsedge 421
Triallate, barban, and diallate, response of wild oat lines to.. 491
Triazines, leaching of seven 117
Triazine residues, relation to fungal and bacterial colonies.... 104
Trifluralin and EPTC residues, after incorporation with different implements 415
Trifluralin and nitralin, effect on mitochondrial activities..... 83
Trifluralin, benefin, and nitralin, leaching in soil columns.... 165
Trifluralin, effect on roots of corn and cotton 513
Trifluralin in soil, inhibition of cotton and soybean roots from 199
Trifluralin-insecticide interactions, on cotton seedlings..... 430

U

Uptake and translocation, diallate in wheat, barley, flax, and wild oat 309
Uptake and translocation, diquat in elodea 293
Uptake and transport of picloram in woody plants, effect of paraquat and 2,4,5-T on 336

V

Vapor pressures, of low-volatile esters of 2,4-D..... 541
Vernolate, for weed control in peanuts 317
Vernolate-^{14}C, metabolism in soybean seedlings 290
